

Labeling Guidelines for Washington-Only Sales

The WSLCB does not require a COLA for beer sold in-state only. HOWEVER, there are labeling mandates, as well as basic product filing with the state required for compliance.

Here are the product labels/keg collar compliance guidelines for beer sold within WA State lines only:

- All labels/keg collars must meet TTB labeling requirements, including restrictions on imaging. TTB labeling requirements can be found here: <https://www.ttb.gov/beer/bam.shtml>
- You must notify the WSLCB of the product being sold in state by filing an "Application for Product Tracking Code" with the LCB. Email completed forms to miwlabels@liq.wa.gov.

The Application for Product Tracking Code form can be found here (under Non-Retail):

<https://lcb.wa.gov/licensing/licensing-forms-and-applications#Non-Retail>
